show that school inspection has a significant role in school improvement especially in teaching and learning teachers acknowledge the feedback that inspectors give to them however school inspection also has a negative impact on teaching and learning for instance it forces some schools to show activities they have never done before moreover the school inspection reports and recommendations in some cases are superficial and are not related to the school context moreover they often do not show teachers how they can respond to criticism in the reality of their teaching practice nevertheless the relationship between inspectors and teachers is not that positive especially in some subjects such as arabic language and islamic studies this piece of research suggests some areas for the betterment in school inspection such as giving more importance for sse school self evaluations shortening the notice period visiting schools at different times throughout the academic year making such visits every three years as well as ensuring that school inspectors have a high degree in education and in the subject they inspect nevertheless it recommends establishing an independent school inspection system on the other hand this study suggests further research on the accountability of teaching and learning in dubai in specific subjects such as arabic and islamic studies because reality shows that the recent intervention and policy have not been as fruitful as expected
